

# Promoting Positive Behavior with

## THE NED SHOW®

Our program helps facilitate and support school-wide positive behavior programs. The NED Show offers the ideal vehicle for launching or energizing initiatives. No-cost resources offer added value and make it easy to build on the initial momentum. Here's how...

### Make your message loud and clear

1

#### School Wide Approach

Experts agree that successful positive behavior programs require a school-wide approach. The NED Show provides a positive, common experience with consistent messaging. Our performers are skilled at incorporating language that is specific to your school.

2

#### All Around Support

Positive behavior programs are proven to be more effective when supported by teachers, administrators and parents. Our assembly engages kids and gets them enthused about good character. The enthusiasm created provides a solid foundation for educators at school and home to build upon.

3

#### Simplified Big Idea

Improving student academic and behavioral outcomes depends on a decision-making framework that kids understand. NED helps simplify big ideas and present them in a way students comprehend and remember.

### Recognize Positive Behavior

Public recognition is a proven practice for motivating positive behavior. Our free online tools provide educators simple ideas for recognizing students and the printable resources to make it happen.

ShopNED.com carries inexpensive, practical NED messaged items that teachers can use to reward NED behaviors. Each time students use these supplies, it serves as another reminder of the NED acronym.
